The next meeting of the Wellesley Amateur Radio Society will be Tuesday, April 15th, at 8PM in the Library. Our speaker for the evening will be our President, John Porter, who will discuss the use of computers and computerized circuits in Amateur Radio. This subject has gained wide publicity of late in several radio magazines.

The trip to the Civil Defense Radio installation has been cancelled due to the center handling only military and nurse organizations at the present time.

No doubt both Field day and Swampscott Convention will also get discussion, if not formally, among the members present. Bring your ideas for future activities, and field day.
